Ask your distributor to call us for availability and prices!

Award winning, certified tested and environmentally correct

Symphony Handmade Seed Papers™

A beautiful way to give back to the earth! Since 1995 we have been offering artistically created, handmade seed papers that we are proud to personalize for you. With a firm commitment to our environment in mind, we design all of our papers from natural, biodegradable or recycled fibers, seeds and plant material directly from nature — without cutting down trees in the process. Because our papers are handmade, no two products are ever alike! The response to Symphony Handmade Seed Papers is continually encouraging, more and more of us are moving toward recycled, easy on the earth products. People love giving and receiving beautiful paper, and even more so when it can be used to grow trees, flowers, vegetables and herbs. We look forward to working together with you to bring nature back to responsible, promotional gift giving.
